

Hunt Continues For Paul Youth; One Body Found

BURLEY, Oct. 25 — Search for Floyd Dorsey, 19, Paul, the last known missing man in the mountains of Oakley, went into its fourth day Wednesday after the body of Clint A. Hilling, 33, Rupert, was found about noon Tuesday at the foot of a cliff one-half mile from his campsite in the Bear Flats area. Mr. Hilling was found to have died from a heart attack, probably Saturday morning, according to a brother, Don Hilling. The dead man's body was found by two brothers, John and Don Hilling; a brother-in-law, Delbert Rasmussen, Burley, and Oscar Nelson. The four had gone back to search for him early Sunday morning and had continued for two and a half days, according to Mr. Hilling. They had hoped to find the body of the missing man, but had located him.

The original hunting party included Mr. and Mrs. William Altheim Rupert, Don Hilling and Clint Hilling.

Don Hilling said Wednesday that about 10 a.m. Saturday he had been walking along a ridge and went to the edge of a steep hill where they parted. Don started back to the camp, arriving about 11 a.m. En route he came to his brother but received no answer.

Knowing his brother had a bad heart, Hilling said he became worried immediately. When an initial search proved futile, the pair decided to return to their vehicle which they had left chains on their vehicle. They were unable to get back to the site Saturday afternoon because of the storm, but returned to the area early Sunday morning.

His brother's body was found about 100 yards from where the two men had been on the hill Saturday morning. Don Hilling said he had been "very much encouraged" about the search.

Burley police said between 40 to 50 men were hunkered in the Monument peak area Wednesday morning searching for Dorsey.

Clint Hilling, 26, was born in Burley and was staying at Taylor's Inn. He moved to the Rupert-Paul area.

Troop Train Hits Truck; Six Dead

MILES CITY, Mont., Oct. 25 (UPI) — The death toll in a troop train-truck collision this morning rose to six by noon (MST) with the discovery of more bodies in the tangled wreckage of two Pullman cars. The train, carrying 385 Wisconsin and Minnesota national guardmen to Ft. Lewis, Wash., collided with a gravel truck at dawn at a frost-covered railroad crossing three miles east of here. Five of the dead were railroad employees.

The sixth was the driver of the gravel truck, Louis J. Everling, 45, Terry, Mont. The railroads, all from Chicago, were identified as W. G. Davis, E. A. Sims, K. P. Rich, Charles Thomas and H. Henry.

The guardmen had come to death in a smoking room and adjoining wash room when the crash occurred. At least one of the deaths was blamed on one of the guardmen.

The bodies were removed from the railroad car shortly before noon.

Several of the national guardmen were buried and cut. They were given first aid at the scene of the crash by combat medical from their own division, the 33rd Infantry.

Eight cars of the 21-car troop train were derailed when the truck exploded under the rear end of here. The truck exploded into flames and the three-unit diesel engine tipped over on its side. The flames spread to the diesel, but were quickly extinguished.

The Wisconsin and Minnesota guardmen evacuated the derailed car in an orderly manner.

The soldiers, ordered to active duty because of the crash, were sent to the hospital in Ft. Lewis for active duty. The crash was expected to delay them in Miles City until 1 p.m.

EXHIBIT TO OPEN

WASHINGTON, Oct. 25 (UPI) — The Library of Congress will open its centennial exhibit of the American Civil War tonight with poet Carl Sandburg as speaker.

In a speech prepared for a saving bond sold conference, Dillon said inflation had caused the dollar "a larger than normal pressure."

While the speaker said "there are no present signs of inflation," he added that both management and labor should "look beyond their individual and immediate interests and work together to keep wage-price inflationary pressures down."

Dillon said such pressures not only could result in serious trouble from abroad, but could damage the domestic economy.

Spokesman Hints U.S. May Halt Trade With Red Bloc Countries

WASHINGTON, Oct. 25 (UPI) — A state department official indicated yesterday the United States may halt its nearly 200-million-dollar annual trade with communist countries if the Soviet Union continues to threaten vital Western interests.

Phillip H. Treasie, acting assistant secretary of state for economic affairs, said all aspects of U.S. relations

involved if such reconsideration becomes necessary. "Export license applications for shipments to these areas" he said, "are already being reviewed with particular care to see that none are permitted which have even marginal strategic significance . . . under current conditions."

Treasie spoke before the Senate internal security subcommittee, winding up two days of testimony on the subcommittee's investigation of U.S. trade with the Soviet Union and other communist nations. Sen. Thomas J. Dodd, Connecticut Democrat, was in charge of the hearings.

Treasie testified after Jant N. Behrman, deputy assistant secretary of commerce for internal affairs, had disclosed that the Senate had passed a resolution threatening to cut off subsidies to its independence.

Taylor plans two days of talks with officials of the Southeast Asia Treaty organization, with Thailand, Laos, and Vietnam, and with U.S. officials.

Behrman's government is deeply concerned over the situation in Viet Nam, feeling it threatens the security of Thailand, and other Southeast Asian countries of Southeast Asia.

Taylor declined to tell reporters in Saigon whether he would recommend sending U.S. troops to bolster the South Vietnamese army with ships capable of a Canadian bank.

U.N. Obtains Congo Chief Cease-Firing

LEOPOLDVILLE, Congo, Oct. 26 (AP)—Katanga President Moise Tshombe has formally accepted the ratification of the Katanga peace agreement and agreed to hand over command of tribal and Scandinavian prisoners this afternoon, the U.N. command announced.

U.N. envoy M. J. and K. K. T. T. will return to Katanga to take control of the Elisabethville post office and radio station taken by U.N. troops during the last eight months; also hand over command of tribal and Scandinavian prisoners captured in the fighting.

The U.N. command had feared that the strong-willed Katanga president might reject the conditions offered to him by the U.N. secretariat so that it would in no way recognize Tshombe's claim to independence from the central Congolese government.

Church Talk Centering on "Wilds" Bill

KUNA, Oct. 25 (UPI)—Senator Frank Church addressed students and faculty here this morning at the Kuna high school and planned to make another appearance later in the day at the College of Idaho in Caldwell.

The Idaho Democrat last night told the Council Chamber of Commerce he had a view of the next generation rather than

the next election in mind when he supported the controversial wildlands bill.

Church said although today's sparseness will benefit from the measure, their children and grandchildren will be the chief beneficiaries.

In time when the wilderness is fast vanishing, we owe it to them to protect some part of it, so that they may know the spiritual refreshment that comes from the opportunity to live for a little time in the wildlands," he said.

Cobb Estate Paper Filed

A petition for letters of administration of the estate of Adm. R. Cobb, noted baseball star who died July 17, was filed Tuesday in Twin Falls probate court by S. H. Graves, Twin Falls.

In a will dated May 21, 1961, the trust company named his wife as sole beneficiary of the Cobb estate. Mr. Cobb had warehouse property in Twin Falls county in excess of \$10,000, so the trust company asked Graves to file for letters of administration for that property.

He left are two daughters, Mrs. Shirley Beckwith, Portola Valley, Calif., and Mrs. Beverly McLaren, Atherton, Calif., and a son, James Howell Cobb, Santa Maria, Calif.

Mr. Cobb set aside 25 per cent of his estate to the Ty Cobb education fund and divided the rest among his heirs.

Probate Judge Zoa Ann Warberg scheduled a hearing at 10:30 a.m. Nov. 14. Parry, Robertson and Daly, Twin Falls law firm, is representing Graves.

Soviet Experiments Indicate Concern with Polaris Missile

WASHINGTON, Oct. 25 (UPI) — A Soviet underwater nuclear test over the Novaya area a nuclear device of very high yield, possibly as much as 50 megatons, but making a major effort to cover the mounting force of U.S. Polaris submarines.

The report by the U.S. atomic energy commission that a relatively small nuclear explosion was set off under water south of the arctic island of Novaya Zemlya was overshadowed by the rest of the AEC's announcement.

That was the USSR also had detonated in the atmosphere

The big bomb is intended as an offensive weapon to intimidate the West with the prospect of mass destruction.

But underwater nuclear weapons and anti-submarine missiles, which have been developed by the Soviets, are designed to repel retaliatory strikes which the United States promises to unleash if the Soviet Union makes war.

At about the same time, the Soviet defense minister claimed a submarine-launched missile had been solved successfully. The ambiguous phrasing of Marshal Rodion Y. Malinovsky left in doubt his exact meaning.

But there could be little doubt about the significance of the two other Soviet experiments.

**One of Nine
South Solons
Losing Seat**

BIRMINGHAM, Ala., Oct. 25 (UPI)—There is no problem in getting a dinner speaker in Alabama these days. Just ask your congressman.

Alabama's congressmen are hungry, too hungry, and the fare for them is white supremacy policies, particularly those of the May elections.

Alabama is losing one of its nine representatives because of population shifts, and the May elections are to decide in effect, which one goes.

The Alabama legislature, rather than to redistrict the state, came up with what is called the "3-4 plan" in a quick special session last summer.

The plan calls for each of the present nine districts to nominate one candidate for the seat.

The nominees then must run in a statewide primary. The top eight in the statewide vote will be in; the ninth will be cut.

Nomination as a Democrat is tantamount to election in Alabama.

**Japan Girds
For Fallout**

TOKYO, Oct. 25 (UPI)—Government scientists today warned all Japanese to protect themselves against expected heavy radioactive fallout from the Soviet Union's first nuclear test.

Metropolitans and officials warned in radio and television broadcasts to the nation that no rain water should be drunk because it could carry radioactivity to earth.

Atomic caught in a sudden rain shower should immediately bathe in tap water, they said, and vegetables and fruit should be carefully washed before being eaten.

Miami Union Hall Ripped By Dynamite

NORTH MIAMI, Fla., Oct. 25 (UPI)—An explosion police said was caused by dynamite tore apart a concrete block building housing headquarters of Teamsters Union Local 220 last night. There were no injuries.

The building was unoccupied when the blast wrecked the 40-foot by 40-foot building shortly before midnight.

"From the smoke and smell I would say that a very large charge of dynamite went off," said Police Sgt. Floyd Moon.

Police said they knew of no reason why the union hall may have been dynamited.

"They've never had trouble before," said North Miami Policeman A. E. Wootten. "It's always been a very good union hall. I've been here five years and we've never had a complaint before."

There was some minor trouble about six or eight months ago but that stemmed from somebody down there (at another Teamsters hall) threatening someone out here."

Wootten said two secretaries, the last persons known to have been in the building, left about seven hours before the blast.

The building is located on a main thoroughfare near small businesses and homes. The explosion occurred in the heart of the building next filling cabinets which contained union records.

Thant Backs Diplomacy of Later Leader

UNITED NATIONS, Oct. 25—U Thant of Burma said today the late Dag Hammarskjold's quiet diplomacy "is the only sensible course in the second half of the 20th century."

The U.N. chief is expected to be elected acting secretary general in an interview he would follow closely Hammarskjold's diplomatic career.

"It is most desirable to understand the other man's point of view," he said. "The world is not entirely black and white. The world is indeed in evolving toward synthesis."

"I believe that capitalism as it was understood in the 19th century has undergone a tremendous change. In the 20th century, as it was known generally a decade ago, has now changed both in structure and in the form of the Russian society."

"Many Americans, I feel, have forgotten that Stalin died six years ago."

Thant, Burmese ambassador to the United Nations since 1957, was in the position of a neutral in the election of a U.N. candidate in an election contest, but who does not know when or whether the voting will take place.

The U.N. reported on Sept. 20 that Hammarskjold, after Hammarskjold's death in a plane crash, that Thant was the leading candidate to succeed him.

Thant has waited since with characteristic Buddhist patience for the big powers to decide what to do. Sirimavo Bandaranaike and Thant were cautious about the choice of a secretary general, but of the number and regions of his advisers as well.

Judge Rules South City's Parks Mixed

BIRMINGHAM, Ala., Oct. 25—A federal judge yesterday ordered integration of Birmingham's park and recreation facilities. The directive brought a quick closure of the facilities.

U.S. District Judge H. Hobart Grooman declared unconstitutional a section of the city code requiring segregation in "any public hall, theater, picture house, auditorium, yard, or covered walk, or other public place, or in any place open to the public, to which Negro persons are admitted."

He said that under higher court rulings Negroes had no option but to enter the parks if the matter had to be decided in court. After City Attorney J. C. Breckenridge filed a plea for the city's side of the argument, Grooman turned to the Negro and told him: "You are already present here. These matters have already been decided by higher courts."

Two Grid Championships To Be Decided Friday in Season's Last Big Slate

Two football conferences will crown their champions Friday afternoon and two others set the stage for crucial last-week action in the highlight of Magic Valley week-end grid slate. The Glens Ferry Pilots travel to Kimberly Friday afternoon needing the victory to wrap up the Big Eight conference title. Meanwhile, Oakley in Magic Valley league, put their unbeaten record and title hopes against a pair of potential spoilers.

In the Cross State loop, the Burley Bobcats host the Mountain Valley Tigers. The two again will put the championship riding on the bitter Veteran's day game outcome with Minico.

The Snake River conference, with three teams still in contention, will decide one of the two open places in the Idaho and Grand View meet. The loop leader, Bellevue, takes the week off.

Following the usual pattern of late season games, only three will be played at night. These include Minico, Hagerman, Nampa at Twin Falls, and Valley at Shoshone. The remainder will begin at 2 p.m. with Kimberly-Olene Perry and Fiji at Buhl slated for 1:30 p.m.

The Snake River competition, which must be approved along with other council actions at the NCAA's annual convention in Chicago next week, was the outcome of a series of recommendations made by the NCAA's gambling committee, formed after the basketball scandal erupted last March.

The committee originally had recommended all summer competition alone be banned. It was expanded to include all competition exclusive of Oct. 15 and the end of March, the official period of college basketball, football and cross country. It also said it would involve competition by collegians in church leagues, YMCA and related activities.

Any violations, Byers said, would result in ban from all future collegiate basketball competition. The ban would not apply to other sports.

Baron Takes Battle Royal In Mat Card

Fred Baron won a straight royal road to mat fight action in the weekly wrestling program at Radio Rendezvous Tuesday night.

Narvo Ortega was the first man thrown out of the ring, followed by Dale, Cal Roberts and Tom Zimba.

In the regular matches, Cal Roberts and Baron battled to a time-expired draw in the 90-minute special class. Roberts won the first fall with a Boszcrab and Baron evaded it with drop kicks before time ran out.

Embo came back with two straight falls to defeat Ortega in the 100-minute class. He was ahead with a series of drop kicks and a body press before Zimba wrapped up the win with a Boszcrab and back breaker.

The next card is set for Nov. 14.

The Pittsburgh Steelers were on the inside one day during pre-season training. They worked out Western State penitentiary in Pittsburgh.

Gentile Is Named Sophomore of Year

NEW YORK, Oct. 25 (P)—Jim Gentile of the Baltimore Orioles, who tied a one-season major-league record with five grand slam home runs in 1961, was named American league sophomore of the year today. The strapping first baseman was picked by 149 of the 170

members of the Baseball Writers Association taking part in the annual poll conducted by the Associated Press.

Pitcher Steve Barber, a teammate of Gentile's, was a distant second.

Gentile, 27, a southpaw swinger, yielded a sizzling bat for average and distance. The Californian hit .302 and tied for seventh among the league's leading batters.

MARKETS AND FINANCE

Stocks

NEW YORK, Oct. 25—(UPI)—Stocks moved higher today for the first time this week behind gains in leading autos, steel, aircrafts and rubber issues.

The market was about as yesterday but ran ahead in the morning when almost all the gains were scored.

The Dow-Jones industrial average gained several points with general American Telephone & Telegraph, Alcoa, Allis-Chalmers and the strong spots among the auto stocks, Old and Ford were up.

International Business Machines rose more than 10 points at 16, bested by their high with Texas Instruments which gained a smaller amount.

Strong movers included the Drug, Kordex, and the three up the night before.

Philip Morris and Myers added a spot or so in the tobacco, Jereid and Adams also.

In the oil stocks, Standard Oil was well over one in the

Standard Steel, Singer Manufac-

turing, Wicks corporation,

Glass, Polaroid and Bar-

berd were up to 10 points.

Investors attributed the upswing to a somewhat better feeling after auto sales and the boost that would give steel and other segments a solid second quarter.

It was pointed out that the industrial which had begun a "test" the low touches late last week were bouncing back in

the market.

Stock sales totaled 3,200,000 shares compared with 3,400,000 yesterday.

New cotton futures

were 10 cents higher to 50 cents.

Red Chinese Try Dash to Get Freedom

HONG KONG, Oct. 25 — More than 1,000 farmers on the communistic side of the border between China and Hong Kong last week made a dash for freedom, but fewer than 100 managed to reach British territory, reliable sources report.

Many who failed to make it were also by Communist border police guards or mangled by police dogs, the sources said.

The sources said the farmers attempted the mass flight Monday after a violent clash between border officials over food rationing.

This was believed to be the biggest attempted mass escape since 1951 when the Chinese communists cleared down on exit permits to Hong Kong.

The Hong Kong government declined to confirm or deny the mass escape. But a government spokesman said 41 illegal immigrants had been arrested Monday in the mountains in the area bordering communist China.
